RESPONSE TO RESTRICTION REQUIREMENT

This is in response to the Office Action dated October 6, 2006, in which the Examiner has required the election of a single species to which the claims will be restricted if no generic claim is finally held allowable. Specifically, Applicant is required to select from the following two species:

(a) methods of using an A₁ adenosine receptor antagonist and (b) methods of using a P_{2X} purinoceptor antagonist. Applicant hereby elects without traverse to prosecute the species designated as (b) by the Examiner (i.e., methods of using a P_{2X} purinoceptor antagonist) and expressly reserves the right to file divisional applications or take such other appropriate measures deemed necessary to protect the remaining species. The Examiner has further indicated that the *combination* of the species set forth in (a) and (b) will be examined with either group elected.

In accordance with 37 CFR § 1.141, upon allowance of a generic claim Applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all of the limitations of an allowed generic claim.

Should the Examiner have further questions or comments with respect to examination of this case, it is respectfully requested that the Examiner telephone the undersigned so that further examination of this application can be expedited.

Appl No.: 10/713,860
Amdt. dated 10/19/2006
Reply to Restriction Requirement of October 6, 2006

It is not believed that extensions of time or fees for net addition of claims are required, beyond those, which may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore (including fees for net addition of claims) is hereby authorized to be charged to Deposit Account No. 16-0605.

Respectfully submitted,

Michelle L. Cunningham
